

Luca Giudici

PhD student in Mathematics, UniDistance Suisse

luca.giudici@fernuni.ch · lucagiudici.ch

§ 1. EDUCATION

- 2025 – **PhD in Mathematics**, UniDistance Suisse, Brig
Advisor: Prof. Dr. Thomas Mettler
- 2023 – 2025 **MSc in Mathematics**, ETH Zürich
- 2017 – 2023 **BSc in Mathematics**, ETH Zürich
- 2012 – 2016 **Matura**, Kantonsschule Baden

§ 2. RESEARCH INTERESTS

Differential geometry and geometric analysis, in particular projective structures on surfaces; projective and conformal geometry, Riemann surfaces, dynamical systems.

§ 3. THESES

- 2024 **Regularity of Soap-Film-Like Minimal Surfaces**
Master's thesis, ETH Zürich. Advisor: Prof. Dr. Joaquim Serra
A study of regularity results for soap-film-like minimal surfaces, modelled as sets of finite perimeter in geometric measure theory.
- 2023 **The Brownian Map**
Semester thesis, ETH Zürich. Advisor: Prof. Dr. Tom Ilmanen
An introduction to the continuum random tree and the Brownian map, following the proof that the Brownian map is homeomorphic to the 2-sphere.
- 2022 **Lagrange and Markov Spectra**
Bachelor's thesis, ETH Zürich. Advisor: PD Dr. Menny Akka Ginosar
[ETH Research Collection](#)
An exposition of the Lagrange and Markov spectra from a dynamical point of view, including the result that both have the same Hausdorff dimension.

§ 4. TEACHING

- Teaching assistant for the following courses:*
- Fall 2026 Analysis I, UniDistance Suisse
- Spring 2026 Linear Algebra II, UniDistance Suisse
- Fall 2025 Analysis I, UniDistance Suisse
- 2024 Probability and Statistics (D-INFK), ETH Zürich
- 2023 – 2025 Applied Category Theory (D-MAVT), ETH Zürich
- 2022, 2023 Analysis II (D-MATH, D-PHYS, D-CHAB), ETH Zürich
- 2022 Mathematics III: Partial Differential Equations (D-CHAB), ETH Zürich
- 2021 Analysis I (D-MATH, D-PHYS, D-CHAB), ETH Zürich

§ 5. SERVICE

2025–	Representative of the mid-level academic staff, Faculty Council of Mathematics and Computer Science, UniDistance Suisse
Oct 2026	Co-organiser, Graduate Colloquium of the Swiss Doctoral Program (CUSO) , UniDistance Suisse, 22–23 October 2026

§ 6. OTHER EMPLOYMENT

2016–2017	E-Reading Tech, Orell Füssli-Thalia AG, Zürich
2016	Sanitätssoldat / Combat Medic, Swiss Armed Forces

§ 7. SKILLS

Programming	MATLAB (linear system solvers, computation of homology groups with javaplex); Python (ODE and PDE solvers, from Numerical Analysis II and Numerical Methods for Hyperbolic PDEs at ETH); C++ (basics, from Computer Science I at ETH)
Languages	German (native), English (fluent; bilingual high school), French (intermediate), Japanese (beginner)

§ 8. REFERENCES

Available on request.
